COMPUTER DETECTIVES

Students are invited to become Computer Detectives on a learning adventure to imaginative places such as the Email Trail or Internet Island. Classes start with an interactive video voicemail describing a new, fun-filled mission. Children then move on to their own computers where they work on custom software designed specifically for each mission. Advancing at their own pace, children proudly apply new technology skills to solve problems and accomplish their goal. When class ends, children continue to enjoy their mission from home with online software activities that correspond to the current lesson. From the very first class, children receive more than just computer basics. Each experience integrates technology concepts such as E-Mail, and the Internet, in an age-appropriate way that even our youngest students understand and enjoy.
